

Matthew Tedunjaiye | Computer Analyst | Systems & Data Specialist

Email: tedunjaiyem@gmail.com | Tel: [+234 704 601 5410](tel:+2347046015410) | Portfolio: codewithted.vercel.app | GitHub: github.com/tobyt50 | LinkedIn: linkedin.com/in/tobyt50/

Professional Summary

Detail-oriented Computer Analyst and Systems Specialist with hands-on experience in **data management**, **cloud infrastructure**, and IT solutions. Skilled in database architecture (**PostgreSQL**), **data validation**, and **real-time system monitoring**. Adept at transforming complex datasets into actionable dashboards, streamlining workflows, and ensuring **high system reliability and security** for enterprise applications.

Technical Skills

- **Data & Databases:** PostgreSQL, Prisma, SQL, data validation, cleaning, and dashboard reporting
- **System Operations & IT Support:** Windows optimization, hardware/software troubleshooting, system monitoring, role-based access control, workflow optimization
- **Programming & Scripting:** TypeScript, Next.js, NestJS, JavaScript, Node.js, Python (basic)
- **Cloud & Tools:** Vercel, Render, Neon (PostgreSQL hosting), iDrive e2 (S3 storage), Excel, Git/GitHub, documentation, process automation
- **Other:** HRIS management, reporting & analytics, training/knowledge-sharing, UI dashboards (Tailwind CSS, Figma, Adobe XD)

Professional Experience

Tertiary Education Trust Fund | Abuja, Nigeria

Oct 2024 - Aug 2025

HR Information Systems Intern (NYSC)

- Maintained and optimized HR systems, ensuring accurate **employee records**.
- Conducted **data validation, cleansing, and reporting** to improve database accuracy.
- Generated **analytical dashboards** for employee engagement and performance metrics.
- Streamlined documentation workflows, reducing administrative time and improving record-keeping.
- Supported system access management and IT troubleshooting for secure operations.
- Facilitated HRIS training, boosting adoption and technical competency.

Freelance Systems Developer | Remote | *May 2022 – Present*

- Architect and maintain **data-driven applications**, integrating robust **PostgreSQL databases** and external APIs.
- Design **immutable database schemas** and **forensic audit logging systems** to ensure data integrity for fintech clients.
- Implement **real-time observability pipelines** using Sentry and PostHog to track system health and user behavior.
- Manage cloud deployments and configure secure **S3-compatible storage** for sensitive KYC data.

Tertiary Education Trust Fund | Abuja, Nigeria

Feb 2023 - June 2023

Intern, ICT Department (SIWES)

- Diagnosed and resolved hardware/software faults, including RAM, storage, and display issues.
- Installed and maintained critical enterprise software and antivirus systems.
- Monitored **network and system performance**, performing preventative maintenance to reduce downtime.
- Documented IT procedures and conducted knowledge-sharing sessions for staff and interns.

Selected Systems & Data Projects

Givar Impact - FinTech & Crowdfunding Platform | givarapp.com

- Engineered a secure platform featuring a **triple-entry financial ledger** and **forensic audit logging** to track capital flow.
- Designed strict **PostgreSQL schemas** with Prisma to support complex relationships and **immutable transaction records**.
- Implemented **real-time system monitoring** (Sentry) and analytics (PostHog) to ensure high uptime and rapid issue resolution.

FlowSplit - Smart Money Routing Platform | flowsplit.vercel.app

- Built a data-centric platform using **RabbitMQ** to process concurrent, high-volume financial data streams.
- Designed dashboards for **real-time monitoring** of user activity, system performance, and financial metrics.

PPALink - Professional Hiring Platform | ppalink.vercel.app

- Managed relational databases and implemented automated workflows triggered by **database state changes**.
- Developed structured APIs and dashboards to improve visibility into hiring pipelines.

Education & Certifications

- **B.Tech., Computer Science**, Federal University of Technology Akure (2018 - 2024) — *Second Class (Upper Credit)*
- **Certifications:** Cisco Introduction to Cybersecurity (2025); Graduate Member, Nigerian Institute of Management (2025)
