

SUMMARY

A Project Manager with relevant years of experience collaborating with cross-functional teams to research, design, plan, implement, and commission projects.

I have experience ranging from maintenance of MWD (measurement while drilling) tools in oil and gas servicing industry to mechanical electrical, plumbing and fire service (MEPF) in industrial and semi-industrial construction. I have also been able to manage a workforce of up to 76 directly under my supervision.

I also back up this work experience with great documentation in all projects involved in with the primary goal of having a chance to review and learn better ways to execute future projects with less challenges than the previous ones.

EDUCATION

B.Sc. Electrical Electronics Engineering	2016
University of Uyo, Uyo, Akwa Ibom State.	
WAEC O' Level	2008
Federal Government College, Ikom, Cross River State	

WORK EXPERIENCE

Baker Hughes Contractor (Ramec Group Contractor)

April 2024 – till date
